

U.A. WHITAKER COLLEGE OF ENGINEERING

STOCK DEVELOPMENT DEPARTMENT OF CONSTRUCTION MANAGEMENT

EXPLORE. LEARN. ACHIEVE.

Leverage new technology, innovation and industry proven tools, skills and procedures.

Demand for construction managers is high and projected to continue to grow. Stock Development Department of Construction Management Program at Florida Gulf Coast University teaches students the skills needed to manage, coordinate and supervise construction projects including scheduling, budgeting and managing materials and people.

FGCU students apply learning from the classroom to real-world experiences.

PROFESSIONAL OPPORTUNITIES

Last summer, our students gained hands-on experience at companies such as:

- ▶ Chris-Tel Construction
- ▶ JAG Building Group
- ▶ Owen-Ames-Kimball
- ▶ PBS Contractors
- ▶ Stevens Construction
- ▶ Unique Hite Designs
- ▶ Wharton-Smith, Inc.

Opportunity is waiting for you.

“

The coursework at FGCU has definitely prepared me for my internship. In-depth exposure to BlueBeam and Excel has been a huge asset.

Being able to expedite spreadsheets has made me a valuable team member at the company. I've also been able to show my coworkers processes in BlueBeam to help facilitate construction drawings.”

Austin Baker, '23
